The Special Blood Need,

in profound anemic and chlorotic states, is the formation
of a blood current of vital richness, with a sufficiency of
oxygen-carrying hemoglobin. Pepto-Mangan (Gude)
efficiently meets this urgent indication, by furnishing im-
mediately absorbable iron and manganese in bland, non-
irritant, organic combination.

Weather

Very cool

Temp.

Rained off on all days &
to raining quite hard to night
Eugene & Aleta brought
Auntie Teeple over & Eugene
had his over coat on. Then
we all had dinner here & then
they all went to Mr John Skinner's
In funeral. Pa & Mella went to
Alymer in the morning. Pa
got his chair cut & a new neck type.
Alla & I didn't go to the funeral.
Mr & Mrs Dauce went to Mr Dauce's
funeral today. Polly's Marial B.
