MEMORANDA.

"At midnight the door of eternity opened and let in amid the great throng of departed centuries the old dying year. Under the twelfth stroke of the brazen hammer on the city clock, the old patriarch fell dead, and the stars of the night were the funeral torches.

Fifty two times hath the shuttle flown, each weaving a week with golden border of Christian Sabbath. Three hundred and sixty five times hath the clock struck twelve for noon and twelve for the night.

During that time how many marriage garlands have been woven, how many graves dug, how many fortunes won, how many victories achieved, how many defeats suffered, how many souls lost, and how many immortals blessed!"
