Test for Bile in Urine.

Chloroform, as a test for bile in the urine, is delicate and certain. All that is necessary is to agitate a few drops of it in a test-tube, along with the suspected urine. If bile is present, the chloroform becomes turbid and acquires a yellowish hue, the depth of which is in proportion to the amount of bile present in the urine.—If no bile is present, the test-fluid remains liquid.—*Medical Summary.*

Weather

Temp.

Very cold & blustery.  
Maidie took Munsu over  
for his ferris. This  
afternoon Munsu & I stuffed  
& fixed the chicken  
house. Dad & Albert came  
& did Polley. We put  
the sheep in for the first  
to night. Girls made pop  
corn & taffey
