303 DAYS PAST

62 TO COME

Finds It Most Satisfactory.

A south of England practitioner says of Pepto-Mangan (Gude): "I have prescribed it constantly since trial. It is palatable, causes no gastric disturbance and is undoubtedly easily absorbed. I look upon the preparation as a valuable one in every way and, if I may say so, more especially in children and young womanhood."

Weather

Temp.

Cold I drove the girls to school. Then came back to Emelie & we went down for turnips. Then in the afternoon I took her some apples & went for the girls. Joe went & drove Eugene's cow over for time & remained all day.
