

Owing to rains which have lately fallen we have been fixing a culvert in the lane & doing some other such work.

I went out to Stone this evening to see about our bee for drawing gravel to improve our church shed for bees. Made arrangements for having bee out next Friday.

Was greatly pleased at having our friend and true friend Mrs H. H. Norton come in unexpectedly this evening. She has been in the neighbourhood for over a week but this is the first we have seen her.

Joe has been cultivating corn again to day. He finished cultivating for the first time to night. Lewis has been hoeing corn while I have been doing sundry jobs as usual.

Went up to uncle Johns for dinner and had Mrs Norton with us. She went down to James Holcomb's again this evening however.

Mrs Norton told me how to keep celery over winter. Take up with dirt on roots - put in barrells in which dirt said has first been placed - cover up tight with board
