

Frank went to school today but Hubby came over and cleaned out the ice house. We had a long visit from Jonas to-night. Still cold and bright.

Thursday January 28<sup>th</sup>

Dad and Hubby have been busy to-day filling the ice house. Alan came and hauled eight loads. It is nice ice now but the blocks are thick. Hubby came over just before dinner on Alan's second load. He voted first they are waiting for councillors to-day. Dick came home for tea to have a feed of beef heart and he told us that Ed-headed the poles with Mat. Wilson second. Harry Smith just missed by one vote. There were just the three running and only two were to be elected. I felt better to-day and took Liddums out for a ride in his dandy new sleigh which his grandfather made him. Weather about the same as yesterday.

Friday January 29<sup>th</sup>

I have been out a little more to-day and did a few chores and put the cotton on another of my window frames. Hubby has been over all day packing sawdust around the ice. I guess we will have to get another load. Dad took a load of ice down to Lee Marshall's this afternoon as all the farmers are helping him

fill his ice house. Frank went down to see a broom-ball match to-night which they are having between the East and West side of Main St. Very cold and windy to-day. Snow drifting.

Saturday January 30<sup>th</sup>

Allen Law came over this morning and hauled our sleighs to haul ice for Bob. Miller but left his here so Dad and I cleaned out the horse stable and box stall which had been cleaned out for two weeks so altogether there were two good sleigh loads and Dad hauled it out on the old garden. I also made a rack in the chicken house to hold the window frames when there are not in use. Hubby came over about noon and he and Frank cut wood all the afternoon. Dad and I did chores. Lila came over with Hubby. Dad, Enak and Liddums drove down town about five o'clock. They took down eight dozen eggs and got 32 cts a doz. Very cold last night and cold all day but very sunny and still.

Sunday January 31<sup>st</sup>

We were very late getting up this morning and except for Frank and Dick nobody has been off us on the farm all day. Frank went to church & Sunday school this morning and Dick who didn't get up till after noon went down town about three o'clock. Dad & I did chores most of the morning and I
