221 DAYS PAST

144 TO COME

A Long-Standing Anemia.

A Southern physician writes: "I have given **Pepto-Mangan (Gude)** a trial in a long standing case of anemia dependent upon a chronic gonorrheal infection of pelvic viscera and the results obtained have been very flattering. Patient has slowly gained in weight and the extreme weakness is giving way to gradually increasing strength. The waxy pallor has also vanished."

Weather

Temp.

Very warm.
John was at Shed San
Wagners all day. Maude &
I went & got the grass box
in the morning. Then
was home all the afternoon.
It looks very much like
rain.
