160 DAYS PAST

Sunday
206 TO COME

Prevention of Scarlet Fever.

During the first four days, commencing at the earliest possible moment, Milne has pure eucalyptus oil gently rubbed in morning and evening, all over the body from the crown of the head to the soles of the feet. Afterward this is repeated once a day until the tenth day of the disease. The tonsils he always swabs with a 1 to 10 phenol solution every two hours for the first 24 hours, rarely longer. For 26 years Milne has used pure eucalyptus oil in this way. When this treatment is commenced early, he asserts, secondary infection never occurs and complications are unknown.—*British Medical Journal.*

Weather

Temp.

Rained to night but fine all day. Girls went to church. It rained some before they got home. Sheel & Albert & Elsie was here. Mr Appleford, Gene & Grace, Mary came with Grace. The two Braundt boys & Mary came & took the girls for a car ride
