171 DAYS PAST

195 TO COME

March 23, 1907.

Dr. R. C. Bayly, Decatur, Ill., says:

"I take pleasure in saying that in my opinion **Pepto-Mangan (Gude)** is far the best remedy on the market today for Anemia, and I have been in the successful practice of medicine for forty years."

Cold most of the day.
Grandie went to Auburn
before dinner then got
old Mariah shod & took her
music lesson. I washed
& Melba did the house
work. John hoed in the
garden in the morning
and cut thistles the
rest of the day.
