

Saturday November 6<sup>th</sup>

Dad. and I went over this morning to thrash and put in a strenuous forenoon of it. I carried away and it kept me very busy as the wheat raled out faster than the oats and there were 210 bushels. Dad. had the dirtiest job as he was in the straw and they put some of it in the barn, there were over 400 bushels altogether. we didn't get through till after dinner. I didn't do much after I got home as I felt a little tough but I picked a few apples. Dad. tried to plow on the harley stubble as he thought it was worth while to go back over the gully but it was too hard so he had to quit. Auntie Alice came over this afternoon and she & Frank picked up a lot of hickory nuts. Frank walked down with her to night and was down till about mid night. I had a bath instead. Pretty cold wind today.

Sunday. November 7<sup>th</sup>

Frank went down to Sunday school this morning and Dad. Dick & I drove down to church. Auntie Maude was in church this morning, it was the first walk she has taken since she came home. So Dad. drove her home after church. Aunt. drove over to dinner with us. This afternoon I went down town and got Essie & we drove down to North

and got Mary: who has been down at the Banfields since Friday night we didn't stay down there long although they wanted us to stay to tea but Essie had to get back to play the organ so we came back. I put fire in the church shed and stayed with them to tea and then took fire home while they went to church. I just got home as Dad. was about ready to start down town after lunch so I went back and got Les, she had been down with the baby to a duck dinner at Subys. when we got home I walked down again and spent the evening at the Bagleys. Ed. & Marion were over here this afternoon. Lovely day but cold wind.

Monday November 8<sup>th</sup>

Dad. got in a good day today plowing. Frank didn't go to school this morning but rode down to Geo. Miller's to see about getting a new dividing wall for the separator as the old one won't stay up in the hawls. Mrs. Miller told him it would be better to get a new one. He came around by Tommy Jackson's to see about getting some honey for his bees but Tommy hadn't expected get so he will have to use sugar. I drove Dick down to the bank and around to see if Neil Elliott would give me \$100 so far Mully but he said he wouldn't but would come to look at her. I'd went down with me and I took a bag of Sulman sweets down to Auntie Alice when I got back I went out &
