

didn't try to come up it but went home around by town and it was after twelve when we got home. We didn't do much else this afternoon but set out 100 tomato plants which took just about all there were in the cold frame. I went down town to night and after going up to see Marj. for a little while I went down to Aunt's; where there was a little party going on in honor of Mr. & Mrs. Gordon who are here at Mrs. Okey's. It has been cold again to day and cloudy this afternoon looks rainy.

Saturday June 16th

Frank has been over at Ben's all day helping him get his tomato plants out. He has had two or three men from the gran house and Bob. Litch's team in the fore noon but didn't get them quite all out. He had to work the land up as he went along. I drove Ernie down town to get some provisions, right after breakfast and when we got back I went through the mangels with the Bakos. up close to the saws. I got them all done by noon. This afternoon I cut all the lawn and took some eggs over to Jack. Dad spent the day being his potatoes and working in his garden back of the old barn. George Clark and Booz weeper with Barwell's dog this afternoon he got run over yesterday and is in pretty bad shape but Dad told him he might pull through. Frank went down town to night. It has been another cold day but a little more sun.
