292 DAYS PAST

FRIDAY

74 TO COME

Oct. 30, 1906.

Dr. H. V. Donovan, Oakley, Ill., says:

"I prescribed the sample of **Pepto-Mangan (Gude)** in the case of an aged lady suffering from anemia, and results were good. In fact, I am now prescribing it regularly. I believe it is all that you claim for it, and I see that my patients get **Pepto-Mangan (Gude)**."

Rained all the fore noon
This afternoon John ploughed
Hellen brought Maudie home
in the cart right as she was
so ill with her hip. Mella came
home alone. I have Maudie in
bed, & am keeping steamed
cloths on her hip. I have been
canning more grapes. George
Davis has been drawing our
milk this week. Mr Coof has
been drawing the second day
selling his wheat

Mauch, 5-
