

and one for Aunty Alice. I also got some ice and put the car out of the horse stable. We hauled two loads this morning and one load of barley as we didn't have time to go after a load of hay before noon. This afternoon we hauled two more loads of hay, there are still four or five loads back there I think. I went down to the dam to the guest mill to-night and had a good bath. It rained quite a shower. Not but nice breeze.

Sunday August 22nd

Frank, Sid and I went down to Sunday School this morning and Dad & Enah went to church. I was home all the afternoon. Gordon Zealand, Oliver Mann, Jerry Rypser & young Cuckey Wilson come over to see me birds eggs. Enah and Sid went for a drive and Frank went over to Tom Butler's. He & Mark went down to church to-night. Dad, Enah & Sid drove down to-night to see Roy as this was his birthday. Mary & Lida went to Brautford this afternoon and brought Aunty Maud home, she is going to stay at Aunt Lucy's for awhile. She gets stronger, she has got on very well so far. Clem & his girl, Carletta Lusk, and Kath Lusk, Lou and two boys came in at noon for awhile. Very cool all day.

Monday August 23rd

We finished hauling the hay from the back

field to-day. We got two loads this morning and as we didn't have time before dinner to go back for another we penned the ewes and milked them all out. Then we hauled the remaining two this afternoon. Supper was in for a few minutes this morning. I went down to bond practice to-night. We have three engagements booked. Bougner picnic Thursday afternoon. Incoe Oddfellows' decoration Sunday and a garden party or some thing out at Juni Ross. Tuesday night. Roy went over to the Point to-day, with Aunt. Dad, Maudie and Jack Orey and just got back about ten o'clock.

Tuesday August 24th

Dad and I hauled in six loads of oats to-day from the corner field. Frank had to go down to Sam Law's to thrash and it made it very awkward pitching up into the mow and mowing away for just the two of us, so that we didn't get as much in as we otherwise would have. I took some milk down to Aunty's to-night and stayed most of the evening. Kathleen & Lou were there. I rode or tried to ride Frank's wheel but made a lead job of it. He took Lura and went for a drive to-night. Fair and not too hot.

Wednesday August 25th

We finished hauling in off the corner field first thing this morning. The barley that was left out there made
