201 DAYS PAST

FRIDAY

165 TO COME

The Special Desideratum.

After the subsidence of the acute symptoms of any infectious disease the special desideratum is the prompt initiation of a blood-building campaign. **Pepto-Mangan (Gude)** builds, revives and re-creates the devitalized circulating medium, increases the appetite and absorptive capacity, augments bodily resistance, hastens convalescence and acts as a general hematinic and tonic reconstructive.

Weather

Very warm

Temp.

Finished haying & had a bountiful crop. Will have to stack the grain. Eugene, Philip, Parker & Mr. White helped all through. The Leaverley girls & our own went to Burrwell fishing all day.
