42 DAYS PAST MONDAY 324 TO COME

Curable Cancer.

A curable cancer means one curable by a cutting surgical operation, and the use of any other form of treatment is unjustifiable and indefensible, because it wastes valuable time, makes an interval during which cancer may spread, thus reducing the chance of cure to almost one-fourth, if not making it absolutely impossible.—*Dr. A. McGlannan; Maryl. Med. Journ.*

Weather a lovely day thawed all day I washed my self alone Nellie went to school alone Mr Leap was over & helped John fix the pipes from the well to the lane for to pump water but their was lots come in the big cistern at the barn it is colder to night This is a historical day never to be forgotten John forth the milk & went some place this afternoon Billey & Mike & Mariah & wife **Temp.**
