This morning the baby and I went down to Auntie's and cut her corn that has all the ears picked off it and made one shock of it. We stayed there to dinner. It hasn't been quite so hot to-day.

Saturday August 26<sup>th</sup>

Frank has been disking all day on the rat stubble. They came to the conclusion that the fall plowing was too hard in spots. Dad. mowed the pig weed which comes thick in the garden and a very even crop they were and also cut the weeds in the plum orchard. I raked up a little on the lawn and when he got through with the team hooked to the wagon and went back and harrowed John Mess' Cement anchor post mould and am going to try at put a few up next week while Dad. & Frank are working on the land or drawing out manure. This afternoon Dad. and I dug one hole. We did it with John's spud and spom and made it five feet deep but it took a long time. To night Ernie's brother and his whole family came in in a car. Mr. & Mrs. James & Stewart stayed here all night

but Jan, Adolena and Fred Johnson who was with them stayed down town at the James. Cooler and cloudy to-day.

Jan and Adolena went over, too but Mrs. James stayed down at the old James and Mr. James brought the car back and stayed there to dinner. Dick wasn't in church but walked over and was there when the bunch arrived. They said he didn't get down town till about four o'clock this afternoon, then they all went down except Dad. who had to keep his eye on the sleeping baby. When I got home long after six Dad. was just getting out to his chores as the baby had just wakened up and he daren't leave him before. The others didn't come home till about ten o'clock I guess and Dad. the baby
