Skin Diseases in Children.

Disturbances of the nervous system have more to do with causing skin diseases than is generally appreciated. The connection of dentition and eczema is probably due to such a cause. Rest and sleep are essential for the cure of acute skin diseases in children. Too much handling and petting of the sick child make it irritable and restless and interfere with the efficiency of the treatment. It is a common experience to see children recover in a hospital under the same treatment which, applied by the other at home, has proved a failure.—Schalek; J. A. M. A.

Mellars a little better

Weather

A fine day

Temp.

Haved Eugene, his man
Bill Brandt, helped
John to draw hay, all
day untill four then Eugene
went home & Bill & Dad
went to the woods. Jim Young
was here & got a little calf
the it was beauties. Maude
has been gone to Mrs McLeays
two weeks to night & not home yet.
