328 DAYS PAST

38 TO COME

To Disguise Castor Oil.

Klein recommends the following method of administering castor oil, which he learned from the Arabs: Pour 15 to 20 grams of castor oil into a glass of milk, and warm the mixture, stirring frequently. In a few minutes an emulsion is formed, which may be sweetened with orange peel syrup. In this form the oil loses its disagreeable taste, and besides, smaller doses are required to obtain the desired results. Fifteen to twenty grams will usually be sufficient to act as a purge in the adult.—*Medical Summary.*
