

Wednesday November 3rd

I drove Dick down this morning and went on up to Dunkin's to see if I could get a ram, but he said he didn't know of one in the country, but he has Lloyd-Jones first prize Lincoln ram with his ewes and said I could bring my five yearlings up if I liked, so I thought I would. I got home about noon and Dad had to go over and give Charlie Guahury two or three hours thrashing so I plowed till he got back and then I husked a little corn. I got ready and went down to Auntie's to tea. In night Mary & I went down to the show. It has been cloudy, cold, windy & damp.

Thursday November 4th

It rained quite hard early this morning so I drove Dick down again and found out that I could get Coleman's stock wagon to take the yearling ewes up to Dunkin's. I thought it was going to be raining so Dad couldn't plow and I could take the big team, so I went down to Coleman's before dinner and got it and see got all the sheep in the barn tagged them and let them all out except the five yearlings and the lamb which will register. I got started right after dinner for Dunkin's with the six ewes. It was slow going up and didn't get there till

about four o'clock, but I didn't have any accidents or adventures and got home by six o'clock. It turned out to be a beautiful afternoon and every body along the road was plowing so it seemed a shame to have the team and keep Dad from plowing. Dad helped Enah haul clean

Friday November 5th

I hurried the dead ram this morning and picked a few of the spies when Gordon Paracal came over to get me to go thrashing over at Jack Martin's. I went over but we only thrashed the husk wheat and there were only 12 bushels left as the hail had ruined it. The spring on the governor broke and also a pipe running down into the boiler and as the engine had to cool off to fix it we couldn't thrash any more today and after we all had dinner over at Jack's we went home. I picked more apples this afternoon. Bill Bush was cutting weeds over in his gully this afternoon and got the leg off one of our Guinea which was sitting. I caught it and killed it. Dad ploughed all day, but will have to wait till next to morn. Enah went down town and stayed till at Auntie Alice's as it was her birth day. I walked down to night to wish her a happy birth day. It has been a nice day but cloudy & cold.
