

Yesterday (October 19th)

First thing this morning I took the team around and got the cockles in the Colony house which Frank and I caught last night and brought them up and shut them in the yard here at the house with the others. Dad went over to Lumber's last night to have a bath and they were to get us to give them a lift with the team on Charlie's wheel which he is moving to make into a log pen. Some went out this morning and took the baby. We got the thing moved in and back home by noon. Some brought us with a bigger calf yesterday. This afternoon Dad plowed and I cut corn, we both got on pretty well. Mrs. Mc Bride was here washing today and gave us a good account of the reunion at Shand's school house, she evidently enjoys it. So night Dad & Enah drove out to the Shands as it was old Mrs. Nyson's birthday she had gone to bed but they saw her. Charlie they told them went to the hospital in Brantford a week ago for the rest cure. They also were invited out here on Thursday night to a kitchen supper for Maimie who is to be married next Wednesday. I did not wake up all evening. Calia Nyson was in for awhile on horse back as it was a beautiful moon light night. Father clauky all day

Wednesday October 20th

Dad has been plowing all day and I cut corn. I did not start very early and quit about four but not quite a lot cut and finished the fourth row. Frank came right home from school and he and I got the fanning mill set and a few of the wet out, soon through. So night I went down town and took Mary's ride. It was a lovely moon light night but very foggy. However I enjoyed it very much and I think she did. So Hicks was down today and said Aunty Maud was getting on as well as possible. She had to go to Brantford Monday for an operation. Cloudy & Rainy looking all day.

Thursday October 21st

I have been cutting corn all day and just got another row cut. Dad plowed all day and is getting the side hill across the gate nearly conquered. Puck Smythe was in this morning to get their lamb and paid me ten dollars. So night Dad & Enah drove out to the Pitman house they are having for Maimie. Aunty was over here to dinner and she said Enah walked down town this afternoon. It has been a beautiful evening & mild day and is a lovely night.
