

Went down town in the afternoon and shovelled the walk when I came home. (was at it half an hour) after reading the Globe and The Enterprise continued 'cut-out' work. It got quite stormy. Mr Schmidt said it was the stormiest day this winter out in the country but I fancy he has forgotten some of the storms. Bad day, however, went to Dunbar, Carnival 15-night, fixed Bert Leukie's head dress. Slept outside.

March 6th (Saturday) Worked all morning for Charles. Mr Caldwell still confined to the house. Continued 'cut-out' work. Fine, bright day but still very frosty. Went down town in the afternoon. After tea Dr. Michener came up to see Charles, re that Mr Eric V. Halladay. Continued cut-out work. Cold so slept inside. Have a bad cold.

March 7th (Sunday) Still cold but bright. Church again 15-day. Went to Church and to S. S. Did not go to Church at night as I had neuralgia in my head. Quite stormy.
