The Rational Method

of restoring the menstrual flow, in cases of suppression or irregularity, is to overcome the chlor-anemic state which is the usual operative factor. **Pepto-Mangan (Gude)** is, in this sense, a physiologic emmenagogue, as it re-establishes menstruation without exciting or irritating the generative system.

Weather

A fine day

Temp.

Maudie & I went to Aylmer
Alta & brought Mellie
home & they brought over
food. After dinner Maudie
& Mellie went to Aylmer
again, to get the chopp
