

Sater day January 10<sup>th</sup>

This has been another beautiful day but is frosty to-night. I puttered around at the Chores this morning and took down a big corn shock and got all the inside of it into the barn and stacked the outside along the chicken house to melt the snow & ice off it. Harry B. was out with me and we disturbed the easy winter quarters of several mice which interested him greatly. It seems sort of hard lines to turn them out in the cold after they had got fixed up so comfortably for the winter. The cats got some of them later. I went over and swept the school house after dinner and while I was there Dad & Jim came out in the bob-sleigh to get Queen's harness. They came over to the school and I went back with them and waited at the farm while Dad. drove Queen & my cutter down to get Aunt Alice and Miss Greenet (the pianist of the evangelists company) whom he brought over for tea and then I drove my cutter straight home. Over intermediate O. H. A. team went to Am. we last night & beat them 8-0.

Sunday January 11<sup>th</sup>

We hurried around this morning doing the usual chores

and getting dressed up leaving about noon to have dinner at the Bagley's. It was very bright but a cold east wind. I left Mary & the kids at the house, then drove down and put Queen in Aunt's barn. This afternoon Mr. Bagley and I went to a meeting Mr. Robinson was having in the town-hall for men only. I was averse to going but Mr. Bagley assured me we would be out early and so I couldn't very well get out of it. There was a good crowd there and Mr. Robinson spoke very well and as nicely as his subject permitted but as I heard it or read it all before and as far as I can see am in no position to either help or hinder his work, and as the hall was cold and as it was after five when we got out I was very sorry I went. I hurried back with Mr. Bagley and got my sweaters and then hurried down to get Queen as it was getting very cold. Mrs. Bagley was going to get tea for us but I wouldn't wait but thought she would give Mary a cup while I was gone but she didn't. We got home about six and I guess I was the coldest after the party but I got warmed up doing chores.

Monday January 12<sup>th</sup>

It has been milder to-day but cloudy. I seem to have felt lazy and didn't do much but the chores this
