

There will be a total eclipse of sun
May 28th, 1919.

Sunday, May 26

147 DAYS PAST

Monday

219 TO COME

Sepsis, Suppuration or Hemorrhage

invariably result in a drain upon vitality which must be compensated for before normal health can be restored. **Pepto-Mangan (Gude)** is a reconstructive and reconstituent of unquestioned activity and can be thoroughly depended upon to hasten convalescence after any exhausting illness.

Weather

Temp.

A lovely warm day
Maude & Grace went to
school. Had two skeps
of bees, both went to gear
there, John finished
beehiving the ten acres
for young helped him
Turned old Mariah out
for the first. Had
my little ducks hatch
Melba has been making
tops & bottoms for the level
Mariah
