## Diagnostic Aphorisms in Gynecology—No. 3.

A swelling in connection with the uterine appendages may be a small ovarian cyst, tubo-ovarian inflammation or tubal pregnancy. The physical signs of the three conditions may be indistinguishable, and the diagnosis will turn on the history. Speaking generally:

An adnexal tumor without symptoms is ovarian.

An adnexal tumor with or following xanthorrhœa is tubo-ovarian.

An adnexal tumor with scanty hæmorrhage following mixed periods is pregnancy.—Giles.

Weather

Temp.

rained off and on  
 all day. When the lightning  
 for Turners barn near St  
 Thomas it burned 40 head  
 of cattle besides a lot of  
 other stuff. Chauncy & I  
 papered the summer kitchen  
 to day. Maudie took Della &  
 stayed out to Mrs M Leays  
 Maudie's was down to Mrs Millers  
 Billy & brought in up to Mrs  
 Miller
