

morning but got some stuff down town to fix it up. After  
 dinner he and Frank went over to thrash at Jack's. They  
 are thrashing out of the field so they had to take the team  
 Dad went over about 4.30 and took Dick's place and  
 Dick went down town for tea. Karl Coleman was over this  
 afternoon to look at Kate and was to make a sickle with  
 Frank for her. I went down to band concert to night. She  
 being my birth day. Aunty, Aunty Alice & Cousin Clara were  
 over to dinner. I got a pair of low shoes, a shirt, an  
 necktie, a wash rag, a film and the Literary Digest - for  
 a year. Looked stormy and has been a hot dry wind.

Friday July 25<sup>th</sup>

I went over to Jack's this morning with Frank & the  
 team and pitched on two or three loads till Dick came  
 over then I went back and thinned more mangels  
 Dick & Frank have been thrashing all day and finished  
 to night Jack had 5-40 bushels from about 20 acres which  
 was better than we thought judging from the field near  
 the road. I slept for about an hour this afternoon &  
 then Dad and I went out and finished thinning the  
 mangels & turnips. We then took a walk over to Art

Quabbin to see if his sheep were affected with the same  
 skin disease or what ever it is that overs are but they  
 seemed to be alright. We thought if they were affected we could  
 attribute it to the dip, but we can't make out at all what  
 it is. We brought the cacos up with us on our way home.

Frank had to go down to Rogers's to thrash this morning  
 and has been down there all day. I put in most of the  
 day hoeing potatoes but took a quiet to the mill this  
 morning and went after it again this afternoon. Dad  
 helped me hoe potatoes and put the wood shed screen down  
 on. Dick went down town this afternoon and he and Dad  
 went to Simcoe and stayed all night. It rained a little  
 last night and they say hoiled big stones out at Rogers's.

Sunday July 27<sup>th</sup>

 & Evah drove down to Church Sid and I stayed at Aunty's
