

March 6th 1874

Friday A cold rough day. I went to Irish Creek with 5 hundred of hay for Jim Lynch at \$15 per ton. Sleeting is all gone. We went up to the Falls with the buggy last night. We got Kellicott's Photo framed yesterday it cost 75 cents. Mary bought another picture today.

Sat 7 Rained a little in the afternoon and then commenced snowing and snowed all the evening. Henry and I went up to the Station.

Sund 8 Rev Mr Slater preached. Snowing but thawing. Pa and I went to the Station to hear Mr Hanna - he is a local preacher; a present he is teaching school at Hutton's school house or up in the south neighborhood. He is a fine fellow.

Monday March 8th

I went to the Falls to mill, took about 17 Bush of Oats in the sleigh. Snowed and blowed like fury all day and all night.

Storming like fury this morn and all day. Pa went out to Toledo for Margaret but it was so cold and rough that she did not come home.

11 Snowing yet. I took Charlotte up to School and then I went to the post office in the A.M. Mary got a letter from Albert. I went to the Station in the P.M. and in the evening again with Wesley Edmunds - cold. Lynch is making Pa and I a pair of Boots.
