

Wednesday May 2nd

Went over to Gonia and got Queen this morning and then took her and old Doc. over to get the spring tooth cultivated. I thought at Pickford's sale. I had to go over home to harrow a set of double trees and while there Dad pulled Doc's front shoes and trimmed his feet. It was noon when I got back home. After dinner Frank brought the car out and I drove him back and then went over and got Mrs. Harvey Ewens and she & Flossie were here all the afternoon sewing. I disked on the far side hill the rest of the afternoon. Tom finished harrowing it this morning and disked part of it and this afternoon he harrowed on the little side hill by the school house. Milder.

Thursday May 3rd

Edmond's man came down with the seed this morning so we were able to get the little back side hill in. I drilled and Tom harrowed before & after the drill. I finished about 3 o'clock and then worked on the hill by the school house till six. So night Cecil Dick and I went to Carl Coleman's for 3rd degree instruction. Mary drove the car down town this morning. Cloudy morning. Fair day. Warmer.

Friday May 4th

Tom and I worked all day on the back field east of the lane. He harrowed and I disked. I only got in about an hour's work after dinner as I quit & go to Cayuga with the Mares. Tom didn't get very much done as he is so scared afraid he is going to overwork the mares. We had a banquet in Cayuga which cost us a dollar apiece. Dick paying the shot for Dad, Frank Cecil & me who all went in his car. We had a very good time getting home a little after eleven. Muriel took the kids over to the school house for Arbor Day this afternoon. Fair & very hot.

Saturday May 5th

Tom and I worked on the land till about 11 o'clock and were then driven in by a heavy shower. This afternoon I drove down town and took Mary, Muriel & the kids. Muriel stayed for over Sunday as they all purpose going to the Falls. I hoped to get back early enough to do some more work on the land but it was a vain hope. I got some stuff at Billy Loring and brought it out and then went back after Mary & the kids. Tom disked all the afternoon. It was cloudy all day and threatened more rain but what just the one heavy shower. Much cooler.
