262 DAYS PAST **WEDNESDAY** 104 TO COME

June 15, 1907.

Dr. W. R. Wall, Willoughby, Ohio, says:

"I prescribed **Pepto-Mangan** for an anemic girl of 16. It has seemed to have a very good effect, as she is now much improved. Menstruates regularly and her color is good."

Pepto-Mangan (Gude) is an ideal blood-builder.

A fine day girls went to school I went up to Mrs Wards & got some corn for corn relish. John ploughed Eugene & Clair Appled was over for sweet corn that Charley Marchant brought out. I cleaned the kitchen bedroom & Gay Evelin was over twice.
