

day as finishing the stack took a lot of time. Kathleen and Lou were over to dinner today and Enah drove them down this afternoon. Mr. & Mrs. Millman came up in the car to night. They are all going home on Sunday. Elm & Carlotta Turk came up too. Fine day pretty hot.

Saturday August 28th

I spent most of the forenoon cleaning out the flower border and setting out a little plant of bleeding heart and some iris which Mrs. Millman brought me. This afternoon went over to Sney's and dug up some more peony roots and took a stroll over to Bronzie where I poked around for an hour or more. Dad ploughed all day. Frank went down to Sam Law's this afternoon and hauled 30 bushels of oats which he took down to the mill and had chopped. Fine day not hot.

Sunday August 29th

Frank, Sid and I went down to Sunday school and Enah drove down to church but Dad. couldn't go as he had forgotten the tin strap and couldn't tie Queen up. I had a very hurried lunch at Aunt's and went to skin cow on the one o'clock car with the band as we were engaged to play for the Old fellow's decoration day up there. We had to wait till three o'clock for the Cantons the highest order of the Old fellow's to come down from Brautford and then we

marched out to the Cemetery and were out there an hour or so. By the time we got through it was too late to catch the five o'clock car so we were treated to supper at the Battersby house and got home at seven. Beautiful day.

Monday August 30th

Dad. ploughed all day but didn't quite finish the field. Frank patched the roof of the old barn this morning and I went up on the inside and showed straws through to show him where the holes were. I went down town before dinner to see about getting some clothes. I wanted to get a second best suit and a light overcoat. Mose Fischer showed me some brown sample of a suit which he said would be \$48. I went down to Tip's and bought a ready-made for \$25. It won't look so well as the other but seemed pretty good and I didn't feel as if I could afford to spend \$22. on mere appearance. I also got Tip to send for some samples of tweed rain coats which he says are taking the place of fall over coats. He had some there but they were all too short in the sleeves. I got a pair of shoes at Frank Smith's for \$7.50 I had dinner at Aunt's and came home soon after and had a few strawberries. I stopped in for a few minutes to see Aunt Maude on my way home. Frank sowed some rape seed in the corn this afternoon but I am afraid it is too late for it to amount to anything. I went down to band practice to night. Fine day.
