

and rained all morning. We hung around down here for an hour or so and then Gupper brought us home in the his car we went down town with him first to get some gasoline. Frank spent most of the morning cleaning up root seed and I cleaned harness. In the afternoon I went down town to get my teeth fixed as the filling came out of it yesterday. I got my hair cut and went down to Lips to get a suit and a hat. I brought them back on approval. Young Earl Aude came over this afternoon to ask someone to go down and stay all night to night so Dad went down. There is great conversation in town over the news which arrived this morning of Billy Faulkner's death. He died in England but no one knows what of but suppose it was the flu. He just exhibited a little white eye.

Tuesday October 29<sup>th</sup>

Dad finished plowing his field to day but didn't get a full day in as he was pretty tired after sitting up all night with Frank Aude. He didn't get home till daylight. Frank went down to Flemming's and they finished thrashing about four o'clock. I didn't go as Mr. Flemming said yesterday he didn't expect us but Frank said they could have used me early in

the day. I did chores and picked apples all day but didn't get in a very long day at the job. Fine day.

Wednesday October 30<sup>th</sup>

Frank and I picked apples all day and got all the Spys picked and a lot of the Duck - no further or Aude veers as Johnson's man called them the other day. Dad started to plow the side hill across the gully to day. We want if we possibly can to get it seeded down with alfalfa next year. It began to rain about four o'clock and drizzled all evening. I went down town to night and intended to stay all night but when I got to Auntie's they told me that Jeff had been down and wanted me to go to Guelph with him to morrow. He had telephoned Lips before and wanted me to go but I told him I couldn't, but when he came down and went after to the farm Dad said I could go so he came all the way down to Auntie's to tell me. As it had cleared off a little I went home for the night. Cloudy and rain.

Thursday October 31<sup>st</sup>

Lips W. Bide was down before breakfast
