

Monday, January 12

June 8th. A very warm day after a fine shower last night.

David Currie of the Glen came to herd cows for us.

9. Sowed about an acre of corn in field south of the pig pen
part sweet corn & some flint & White Cap. Corn mixed
Sett out about 40 gladiolus bulbs of Mrs. Mc Cormicks kind
also some aster plants.

In the evening I was treated to a very pleasant
surprise, when the members of our Sunday School
gathered at Mrs Corn wells to celebrate my birthday.
we had music and games with lunch and lemonade
afterwards, but where the biggest surprise came was,
that before they left an address was read and they
presented me with a very fine Leather Hand Bag.

They seemed grateful that I had opened my home
for the Sunday School, while in reality I have been
getting the best of it myself, for I have enjoyed having
them come, and the opportunity of having a class to
teach each week. has been a great help to me, and
while the gift itself was beautiful indeed, yet perhaps
it was, "The thought that prompts it makes it dear" as
someone has written, and I hope that I shall always
be better and stronger for the confidence which they
have placed in me, in the cause which is so dear to
my heart, but words are poor things indeed to express
ones feelings when your friends place such confidence
in you.
