

December Sunday 12 1926

Roscoe and I drove up Peg Lane at night and I got Jean and took her up home with me. Business conversations with Mother and Dad after the rest had gone to bed. It wouldn't have seemed like Sunday at all if I hadn't been able to spend a few pleasant minutes with Jean, we had such a busy day at Bendemeer.

Monday 13

A busy Monday collecting bottles and tickets on the milk route and a busy afternoon washing them and cleaning up in the dairy. felt pretty tired at night so retired at eight o'clock.

Tuesday 14

Carl came down in afternoon to take Roscoe's place as he went to Toronto in the afternoon to attend U.F.Y.P.O. Convention. Carl went to practice at night so it was late when I got the house fixed up for the night.

December Wednesday 15 1926

A very cold wintery day with a strong westerly wind blowing. Thought I would freeze on milk route but managed to arrive home in a very much alive but chilly condition. Alip went to Toronto in morning to attend a short course there.

Thursday 16

Another day just as cold as its mate the day before. Roscoe didn't come from Toronto as we expected but we kept things going just the same.

Friday 17

A clear bright frosty day. Attended Mission Entertainment in the Community Hall, heard a good programme and officiated as Santa Claus. Alip and Roscoe came home and rode out to Bendemeer with me.
