

Frank and I did chores and husked a little corn. Alan
 Law came in here after dinner to see if we had sold our
 clover seed yet and showed us a card he had got from
 Edmonds saying they were in the market again and for
 him to send up a sample of his seed. Alan had sold
 his to Jess for \$20 a bushel so Frank caught the 30th
 and took a sample of ours to Edmonds and sold it
 for \$21 a bushel. We have to take it up in the morning
 in Dad went down town to pay Char Deal for the coal this
 afternoon and East & Tit. drove down for some
 I read the paper, cleaned out a place in the cellar for
 my incubator and started to prune the raspberries but
 the didn't get much done. Frank went down to Alfred's to night
 to see him if he wanted us to take his seed up for him
 the reason but he wasn't home nor Art's nor Pick's
 Mrs. & Dess had letters from Dick to day and in Des's
 said he thought they would be leaving for home about
 in April. He told a very distressing story of the filth and
 poverty of Vladivostok. Nice day but rather cold west wind

Wednesday March 12th
 Frank went down to Alfred's this morning and got his

two bushels of clover seed and while he was down
 there Dad and I weighed up a bushel of ours for Will
 Wright and the balance just amounted to a little over
 3 1/2 bushels so we kept out the few pounds over that
 amount and so just sold Edmonds the 3 1/2 bushels
 Dad went with us up to Miss McLaugh's to see her shoes
 We met Will Wright on the road coming down here
 after his seed so we gave it to him. We then stopped
 in at Sam's and left the way for there and borrowed his
 democrat. It was half past ten when we got started
 for Simcoe and the roads were rather slippy but
 we got there and got our seed sold before noon. We didn't
 wait till one although Frank wanted to see Neff and
 get some mower supplies. He got the checks cashed up
 there and we got home about half past two. We didn't
 do anything but chores when we got home. East drove
 down town and stayed to tea and Frank and I went down
 after tea intending to go to church but found there wasn't any
 on account of Mr. Johnson being sick. Frank went to an
 agricultural lecture in the town hall and I went
 over to see Mary. It has been a very nice day but
 very windy and the wind has been getting worse all day
