

I had to go up town to get some bread for Suppers I stayed down at Auntie's for dinner. After dinner I went up and asked Mr. Johnson to come over to the club to night but he said he couldn't as there was a vestry meeting on and advised me to get Mr. Robertson so I got Lige to ask him. Soon after I got home Neff and Mr. May came over to look at my pigs and Frank's pigs that we are entering in the Profit Competitions. and when they left it was time to go over to Supper's. Gladys had four pigs to-day. Dad has two of them in the house but one is not going to his long. We had a great meeting at the club to night. About six Court Land boys and as many girls came down and we had a good turn out of our own local boys and girls. Carby who was to have helped Frank out in the debate informed us at the eleventh hour that he couldn't come so Frank had to hold up one side alone. However he made a good job of it and the judges made it out a tie. Almost the Court Land fellows did very well but the other wasn't so good. Mr. May acted as critic and then gave us a little talk on the Y. M. C. A. and invited us all to go to Lincoln to-morrow night to a meeting they are having to organizing the county

After that we had some games and supper. We stayed for a long time after our visitors left and danced and cut up till a late hour. Sam had his phonograph down to furnish the music and Charlie Shand played his mouth organ. We think that will be our last meeting there.

Friday April 25th
 It had been very cold and very windy all day and snowed to night. We haven't done very much but chores. Frank and I put up some hay ready to haul over to the horse stable but it was too windy to haul it. Niel Elliott's nephew came over to ask Dad to take Daisy May down this morning as they were going to drive a bunch to Jarvis. Dad told him he was pretty sure at having to take her down and bring her home again last week and that now if Niel wanted her he could have her for \$25.00 so I went over to Jack Martin as Niel was going to telephone there to say whether he would take her or not. Jack was very disturbed when he saw me as Niel had telephoned him early this morning to tell us to bring the cow down and Jack had promised to and then forgot. Niel called and soon
