

Friday July 5th

We all three coked up hay all day to-day and finished coking all that was raked before six. There are still about two acres on the east side of the field to rake up yet. To night Frank and I went over and got home Wyo and got him to help us go and put Henry Wisener's tank on the wagon. He had an awful job as just as we were getting the thing on the hind bolster of the wagon the weight of the engine rolled it over and we worked till eleven o'clock before we got it fixed. He is going to spray our potatoes for us tomorrow after noon. I felt tough all day and to night it was all I wanted to do to walk home and roll into bed.

Saturday July 6th

Dad. culivans came this morning and Frank went down and got the piece of the ladder at the Widespread. I went back and turned out the heaviest of the hay that was in swath but didn't feel much like working and spent a good deal of the morning under a tree. Frank came back and raked it up before noon. This after noon Dad and Frank went back and coked it up and then brought a load up and pitched it off in the horse stable. Nuff came after noon after dinner to go and get the

sprayer attachment and help him put it on the sprayer. We were all the after noon at the job and didn't get any spraying done. Nuff said he would be down Wednesday night to spray. Cloudy with very cool breeze to-day.

Sunday July 7th

Frank and I drove down to church this morning and Dad and Sid. walked down to Aunt's for dinner where Frank went from church. This being Dad's birthday they were down there all the after noon. Baby brought them home in the boat as far as Black Creek bridge and he and Aunt's here to tea with them. Frank and I had dinner alone and this after noon Frank went for a ride on his wheel with Lila and I went up to Ham Thompson's as Harvey Row was over here this morning to say that we were to take our rams down to his father's in the morning as the inspector was to be there. I asked Ham to bring his ram down to our place and let us hook to his wagon as the tires are so loose on our own. I came back home and read and slept all the after noon. Baby brought Sid one of the spaniel puppies to-day. Frank and I got Dad three books, Short horn Cattle, Hoods & Feeding & Breeding Farm Animals & Jucker. Pickford was over for a visit to night. Quite cold to-day & windy.
