211 DAYS PAST

154 TO COME

Avoid Irritant Medication.

Care must be taken to avoid derangement of the digestion during convalescence from typhoid and, for this reason, **Pepto-Mangan (Gude)** is especially indicated as the most readily tolerable and generally efficient reconstructive and hematinic. It never creates aversion, destroys the appetite nor causes gastro-intestinal irritation. Through its regular use typhoid convalescence is promoted and hastened.

Weather

Temp.

Rather chilly in
the morning, warm about
noon then colder in
the days was all at the
kath place. John brought
home eight pigs,
from Kingmill as I heard
I Clarence took ours away
Mrs M^e Leay took our brand
up to her place this morning
