

Mrs Dall on the car. She had been down at Coburn to see Ray and says he is just about alright again. We went up to the J. F. J. A. social evening. I stopped in at Auntie first. We put in the time in the usual manner up there and I got home at three o'clock. Rained this morning. Freezing to night.

Wednesday February 5th

Dad and I did chares this morning but not much else. This afternoon I went over to Lorne Myers and got the best pulp he ordered for us. It is queer looking stuff and very bulky, the cut bag being about as big as a blue grass sack. We put a little of it to soak to feed the cows to-morrow. To night I went down town and Mary and I went skating we called in and got Jethro to go with us. Ed Turner, Woodger, Leggit, Mr. Bagley & Cassie were down there and as the ice was pretty good we had a good skate. It has been colder to-day but fine.

Thursday February 6th

Dad went down to Alfred's this morning to borrow the screens of his fanning-mill which he uses to clean clover seed, as we want to get ours cleaned up. Mom was talking

to a fellow at the sale on Tuesday and he said they had no clover seed to saw up there, and the Wood stock seed merchants were asking \$32.00 a bushel for it. Mom told him he could get 100 bushels down this way for 25.00 or less so he took Mom's name and said he would put it up to his club and try to get them to give us an order. This afternoon I went down town as notice of a registered letter came and as I suspected it was the pedigree for the sheep and found I was correct. I posted them again to Layd-Gones before I came home. To night Eva and I went down to the Hall to see the hoop that are home from the front get their five-dollar gold pieces or what ever the town was giving them. Cath. Taylor was doing the presenting and Mrs. Johnson calling out the names of the men. Most of them had got their souvenir when we got there but we heard Ed Moor and Ed Turner make little speeches. They had a dance after wards and we stayed till about mid-night.

Friday February 7th

We didn't do any thing much to-day but chares with sit around and read. We heard last night that the Shoos had got a letter from Willie posted at Lupton
