116 DAYS PAST

249 TO COME

Cardiac Affections.

Cardiac troubles are aggravated by large doses of the following drugs: iodine, acetanilid, aconite, belladonna, bromides, chloral, digitalis (in many cases), exalgin, hyoscine, pulsatilla, sulphonal, trional, and veratrum. The following are particularly apt to aggravate bradycardia: caffeine, chloral, conium, ergot, and some of the narcotics, if long continued.

Weather *Gold & cloudy* Temp.

The girls went to Sunday school  
& I went with them as far  
as Auntie Arnolds. Stayed  
untill Sunday school was  
out. We went over the girls  
& I did went to Mr. Coxs  
Onelin was away to church  
with Lawrence Mrs W Coxs &  
Kates little girl was there &  
old man Holmes he is a  
bandy.
