311 DAYS PAST

54 TO COME

The Puerperal Patient,

if at all anemic, requires special attention during the period of gestation, in order that she may be thoroughly prepared for parturition and lactation. **Pepto-Mangan (Gude)** is so thoroughly palatable and agreeable, and so easily tolerable, that the most fastidious prospective mother takes it readily and with marked benefit.

Weather *Cold* **Temp.**

*Girls + I went to church + drove
the new buggy + roads was fine.
Girls + Corbin went to Sunday
school. John was out to Bakers
this morning. Aunt Bell was at
church. We was all over to see
leaves to night. Mr Coplas
a calf it died a few days ago*
