

Mount-Rubidoux. the road
circles around the hill. all
the way up to the top. it
is 800 feet high and you
get a fine view of the city.

We took some snap shots.
but it is pretty cloudy.
we are leaving our trunks at
our new place till we come

back from Los Angeles. Lella
did not like on top of the mountain

it was so high it made her dizzy

Dec 28th. Weather fine & warm &

bright. Got packed up and
left at 9:30 am for Los Angeles with
Dean. Drove out Main St and along
Magnolia Drive to Corona where
we stopped at the Park had
some slides, and took three
snaps. And had ice cream

at a booth along the road. it
sure was good. after leaving
Corona. (about 2 miles back)
we started to get into the hills
the road circled around the
hills and along side of them
up the valley for miles
then over the top and down
the other side. When we got
near Elise, we saw some
fine orange groves, also acres
of walnuts, and all the way
from Elise to Anaheim
orange both sides of the road
for miles. (this is claimed to
be a fruitless belt) and we did
not see any smudge pots here
as in other places. We stopped
outside of Anaheim at a stand
and had hot dogs & coffee
