

Dad has been looking for me from Dick as we thought they were on the same boat but have found out since that Willie Slord sailed about a week earlier than Dick I went skating to night and had a fine time. Miss W. Green went down and afterwards Mary, Ed. Turner and I went in to her place and had coffee cake. As I was going through Martin's to night I was very surprised to meet her. He had come home on the seven o'clock car. He went home and then came down to the pond. Still fine and mild.

Saturday February 8th

We cleaned off the barn floor this morning and put our clover seed through the mill. It didn't clean out much and what seed went behind we put through again and will keep it to sow as there are very few weed seeds in it. We will have about six bushels or more to sell and plenty to sow. We also put through a sample of oats to take to Sam as Jeff is buying seed oats for the Government at 80c per bushel to send out West and Johnson is handling them for 8c per bushel. The market price is about

sixty cts. Frank and I went skating again to night. The pond is just now up shore where it was frozen before as it has risen and made new ice. It is still beautiful weather may be a little colder but very little.

Sunday February 9th

I actually got ready in time for Sunday school this morning and went down. I stayed at Aunt's for dinner and this afternoon went up to see Mary. We sat around the house all the afternoon as it was snowing hard when I went up. We went down to Aunt's for tea and Aunt, Alice, Mary, and I all went to church. Ruby and Aunt Maudie come back to Aunt's with us and we spent the evening there. It didn't snow much. Colder.

Monday February 10th

We spent the day hauling out clover chaff on the wheel to day. We hauled it out on the rock and Frank and I pitched it off and spread it as well as we could and Dick followed us and shook it out more as we didn't want to get it on too thick. We got it all out and it covered three bands the full length of the field and a piece at
