129 DAYS PAST *Morning Pills* 230 TO COME

**The Preferable Hematinic Reconstituent.**

Any form of iron exercises its therapeutic activity in exact ratio to its absorbability, assimilability, and freedom from irritant properties. **Pepto-Mangan (Gude)** presents its iron (and manganese) content in the form of organic peptonates, and in condition for almost immediate appropriation by the blood and tissues, without exercising any harsh or untoward action upon the gastro-intestinal mucosa.

Weather

Temp.

Fine finished seeding  
to night John went to  
London for Mrs Teepler  
is going to bring her  
back to St Thomas. Eugene  
went to Ay liver to night  
Maude had May Gibson  
& Miss Martin out for  
the afternoon. She & Mella  
took them home after  
tea Billy & Mydia &  
& planted my dahlies

all the feet
