

I started to practice on my horn to-night but found the little valve broken off the second valve Soaty has fixed it on twice already, so I don't think it is much use taking it to him again. It was nice and sunny this <sup>today</sup> morning but turned cloudy and snowed all the after noon, cold and windy all

Wednesday November 12<sup>th</sup>

Huby came over at seven o'clock this morning and hushed down all day, we both went out and helped him as soon as we could so got quite a lot done. Dad had to go down to Flemming's at noon to see Chris Luanburg's cow which has some swelling on its jaw. I went down town after supper to get some groceries, foot wear and my hair cut, Andrews was closed but I did the rest of my errands and took the valve of my horn to Soaty's again for repairs. Walt said if I left it to Whaley Rogers co. it might be three weeks before I could get it again. I went up to the bank and waited there for an hour or two for Dick, he got back from the moving picture show about 1/2 past 10. And then worked awhile. Hagen was there when I went literally "stripped to the waist" looking for a mistake they made or have been looking for for about a week. Hagen & Wiggins were looking for it. When we left I decorated Hagen's photo graph album a little while I was there. Supper was here while I was in town and wants one of us to go and thrash to-morrow. He ran a nail in his hand, and is just about laid up with it. Very much milder to-day, would have been perfect Indian Summer, but for a cold wind

Thursday November 13<sup>th</sup>

It was raining when we got up this morning so we did not hurry to get over to Supper's. After breakfast it did let up a bit so I went out soon began to rain again and we didn't do a thing all morning, except talk, it is the most amusing, entertaining and typical conversation when Bill Donald, Win. Law and Supper get to-gather, I stayed to dinner and we thrashed all the after noon as it cleared off quite fine. I came home as far as the corner with Win Law who was driving to town. Supper will have about 60 bushels of <sup>olives</sup> when he gets through some of it pretty good, he sold it to Green's man to-day for 8.50 cleaned up, he has a very sore hand where he ran the nail in. I have to go back to-morrow. Huby hushed corn this after noon. Dad said he worked out in all the rain and got the cow stable-roof well repaired and the chicken house roof nearly fixed, both with roofing paper, he also did up all the chores and to-night hushed what seed corn we have up.

Friday November 14<sup>th</sup>

I got over to Supper's about 8.30 this morning and they had just started when I got there, we finished the olive just at noon, it was a pretty dirty job even after they put the blower out side. He fears that it was a fright. After dinner we thrashed out his
