

22

Friday May 22/1874
Got a spring pump in my water
and a crystal. They cost 75 cents.
Bought me a hair brush & comb.
Plowing in the back end
of the field behind the barn.
Cold and windy.
Beautiful evening but cool.

23 Plowing in the forenoon and
Pm I drew 3 loads of manure
and seeded 4 acres beside the
road.

24 It was very warm during the
middle of the day.
Mr Pearson from Farmers-
ville preached today.

I went to Eastons Bowers
to Sunday School in the P.M.
It has been a good day to say the least.
I may I triumph. When all my
warfare is over, And I find my
labors for, under my feet at last.

Monday 25 May
Plowing and harrowing over
ground. Planted 13 rows of
potatoes. Henry rolled the piece
beside the road.

26 Rained pretty near all the AM.
Planting potatoes in the
afternoon had 46 rows of
Early rose near the creek, and
1/2 of Cups and of pink eyes
and there is about a dozen
more to plant. I went over
to Pat Murrys to get him to
come to help us tomorrow.
He is to come.

27 Had Pat Murry today
finished corn and potatoes
about 3 o'clock. Beautiful
day. Pa and Margaret
went to the Station in the
P.M.
