345 DAYS PAST

TUESDAY

21 TO COME

**Subjective and Objective Symptoms Relieved.**

A certain and speedy increase in the percentage of hemoglobin is the rule in cases of Chlorosis, when **Pepto-Mangan (Gude)** is regularly administered. The number of red cells is also augmented and both subjective and objective symptoms are rapidly relieved. Patients of all ages readily take **Pepto-Mangan (Gude)** because of its distinct palatability and ready tolerability by the stomach.

Weather

Temp.

A very high wind blowing all day & sleet at night. Melba took Grace as far as the corner & then she rode with Ida & back to the corner with Ida. Leed was over to night. Melba ironed & I was working on Christmas presents & Maude till in bed. John did his chores & went to Mr. A. S. Rogers's sale.
