

**Sunday, October 1**

275 DAYS PAST

91 TO COME

**Red Cells Scanty—Oxygenation Feeble.**

An Ohio physician, referring to an anemic patient, says: "The young woman was both weak and emaciated, the red corpuscles were scanty and oxygenation feeble. I had tried almost every ferruginous preparation without results. After using **Pepto-Mangan (Gude)** the patient rapidly improved and is now strong and hearty."

Weather

Temp.

A fine day but cool

Florence went to Charley's  
this morning, Eugene &  
Aleta was here for dinner  
Maudie went to Sunday  
School along Dr. Pickering  
& wife was here, Shed & wife  
was here to night. Wilfred  
Bingham was here for tea
