210 DAYS PAST

156 TO COME

Geriatric Aphorisms—No. 16.

The dysuria of calculus is worse toward evening after the patient has been standing much; of prostatic disease it is worse during the night or in the early morning.

Indicanuria is always present in the aged.

Lienteric diarrhea indicates excessive food; mucous diarrhea, improper food.—*Nascher; Amer. Med.*

Weather

cooler this

Temp.

Morning, but grew very
warm. I went to Eugene
& took two dances with
me. Eugene sent a
little pig home for the
girls. I called on my
way home to see Aunt
Bell. Eugene has been
very sick, but is better
