225 DAYS PAST

140 TO COME

## One Important Factor.

An English practitioner advises us: "Having tried Pepto-Mangan (Gude) in a number of cases of hydremia, it was surprising how quickly the system responded to the medicine in the quick return of ruddy cheeks and exuberant spirits. One important factor is the non-requirement of aperients; this fact alone should convince the careful observer of the value of the preparation."

Weather

Temp.

Warm rained some  
this morning & a little  
this afternoon. Boyo all at  
the north place. I cleaned  
the summer kitchen!  
the girls did the work  
The little Davis girls  
was here this afternoon  
Wilfred was up Carl  
Believe was out  
Billy & Della
