302 TO COME

Syphilo-Dermo-Urologic Aphorisms.

Vesical hematuria is a condition that varies much, according to its causes. If it be due to stone in the bladder, it is usually moderate and it becomes apparent or is increased by bodily movements. If this hemorrhage be persistent or profuse, and is not influenced by bodily exertion, the fact points to the presence of a tumor as the causative agent of the bleeding.

—*Amer. Journ. of Derm.*

Weather

A beautiful day. Temp. Warm as spring, needed no coats on. Saw two robins. Aleta took her father to the station and left John here. She came back for supper. Mrs. Van Wagner was up all afternoon. Pa went to Kinneys sale with Shed and Albert. Sent Grace's parcels with Aleta.
